

ARK LABS

LEARN • BUILD • INNOVATE

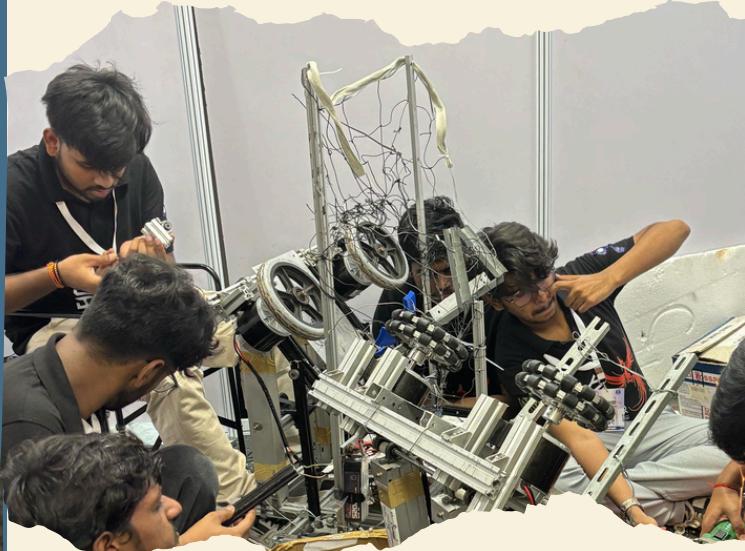

Premium, hands-on robotics workshops that transform classrooms into engineering labs. We bring competitive robotics thinking directly to school students.

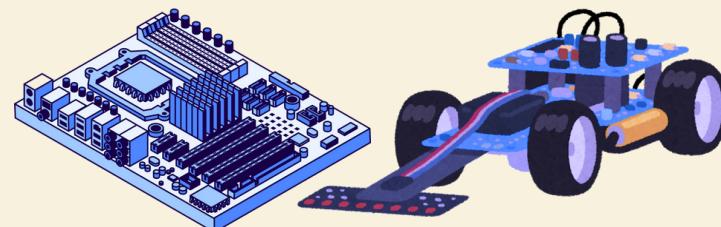

ENGINEERING THINKING
STARTS EARLY

HANDS - ON WORKSHOPS

Led by IITians with national-level competitive robotics expertise

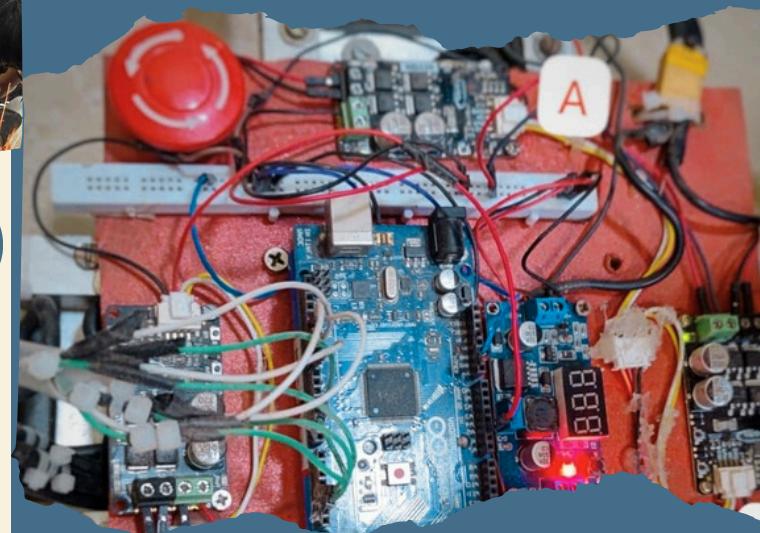

CLASS VIII - X

A SINGLE-DAY ACADEMIC
PROGRAM FOR FUTURE
READY SCHOOLS

OUTCOMES

- Build complete working robotic systems
- Design and assemble Arduino based robots independently
- Write and modify Arduino code for new behaviours
- Diagnose and fix hardware and logic faults
